# "Tirupati Integrated Product Scenario & HMS Software Tariff Structure"

Tirupati Integrated Hospital Software:-

➢ Company Working in Health Care Domains Since 2013 with having more than 15 Staffs.
➢ 15+ Distributors in India & Worldwide & 5-Branch Offices,
➢ 250+ Satisfied Clients around the World.
➢ Fully Manage Dynamics Solutions the meet Successfully Client's PIN-to-Pin requirements.

Objective: To Provide an integrated Solution for the Hospital, which

• Helps in Efficient Management of the Hospital.
• Enhance Patient Care
• Improve work efficiency
• Improve Fiscal Control
• Eliminate the chances of any Pilferage
• Enable the Growth of the Hospital.

What you need

• Be fully informed about the Vital Stats of the Hospital.
• Lesser dependency on middle & Lower Management. Full control on the staff.
• Take corrective actions based on the data instantly.
• Helps you to Plan any future activity.
• Ultimate Aim – **Better Patient Care with Efficiency**.

Tirupati Integrated Hospital Software streamlines and integrate the operation processes and information flow in the hospital to synergize the resources namely men, material, money and equipment's through information.

• This ERP facilitates hospital-wide Integrated Information System covering all functional areas like out & in Patients Billing & Management, Patient Beds, Visiting Consultants, Medical Stores, Pathology Laboratories, Radiology Laboratories, Imaging, Pharmacy, Manpower Management, Kitchen and Laundry Services etc.

• It performs core hospital activities and increases customer service thereby augmenting the overall Hospital Image. ERP bridges the information gap across the hospital

- **Tirupati Integrated Hospital Software** eliminates the most of the business problems like Material shortages, Productivity enhancements, Customer service, Cash Management, Inventory problems, Quality problems, Prompt delivery, Pilferage, TPA Billing etc.

Key Features

- **Tirupati Integrated Hospital Software (TIHS)** is a fully-integrated, Hospital Information System Solution.
- **TIHS** gives a total integration of order entry systems, administrative system, and departmental subsystems within a hospital.
- **TIHS** allows for scalability, reliability, efficient data processing, quick decision making, reduced maintenance and overheads.
- **TIHS** data is stored in a single database providing real time data across applications throughout the hospital. Since all the data is stored centrally, it can be viewed simultaneously from multiple terminals giving all departments' access to timely, up-to-date patient information.
- Tirupati Integrated Hospital Software offers a fool proof data security without user intervention to archive data.
- **TIHS** is a comprehensive information system dealing with all aspects of information processing in a hospital. This encompasses human (and paper-based) information processing as well as data processing machines.
- As an area of Medical Informatics the aim of TIHS Plus is to achieve the best possible support of patient care and administration by electronic data processing.
